

Table stand and  
air filtration system for  
Roland DG UV Printer series

# Our solution

## ULT high quality air filtration

The RDG MO was developed exclusively and perfectly for the Roland DG UV printer. In addition to its exceptionally quiet operation, it is the perfect visual and technical complement to your printer. Device castors ensure mobility and flexibility - there is also plenty of storage space for accessories and consumables.

Three versions are available:

The "basic version" offers a stable table stand solution.

The "standard version" and "high performance version" both include an additional filter system to reduce odors during the printing process.

All versions of the RDG MO are supplied **partially pre-assembled**. Detailed assembly instructions are available in writing and as a video.

### Benefits:

- Stable table stand solution with castors and much storage space
- Filtration system for odors occuring during printing process
- "Silent technology" offers extremely quite operation

## The basic devices

	RDG MO-180	RDG MO-240
ULT order number	2-00299	2-00303
Dimensions (WxDxH)	1,440 x 903 x 588 mm 57 x 36 x 23 inch	1,592 x 1,210 x 588 mm 63 x 48 x 23 inch
Weight	101 kg / 223 lbs	115 kg / 254 lbs
